CAREER OBJECTIVE

Motivated and about to graduate (Jun'26) IT student with hands-on experience in technical documentation, stakeholder engagement, system testing, workflow analysis, and Agile product delivery across health-tech and research platforms. Experienced in collaborating with technical and non-technical stakeholders to gather requirements, analyse digital workflows, validate system functionality, and support data-driven decision-making. Skilled in Python, Jira, SQL, data systems, user-focused solution design, and cross-functional communication, with a strong interest in managing projects, enterprise ICT delivery, and digital transformation projects.

EDUCATION

Bachelor of Information Technology, CGPA: [6.2/7] **Jul '23 - Jun '26 [Exp]**
Federation University Australia *Ballarat, Victoria*

Bachelor of Computer Science and Engineering [Transferred Credits] **Oct '21 - Mar '23**
BRAC University *Dhaka, Bangladesh*

PROJECTS

Product Owner @ KidneyMate - Chronic Kidney Disease App — *Flutter, Supabase, Jira* **Sep '25**

- Developed **KidneyMate**, a chronic kidney disease self-management mobile app. Translated business and clinical needs into functional application features, including medication, fluid intake, sleep, symptoms, appointments, health tracking.
- Led an Agile team as **Product Owner & Development Lead**, managing user stories, backlog prioritisation, sprint planning, and feature requirements using Jira.
- Supported system testing, usability reviews, feature validation, iterative improvements across multiple sprint releases.
- Conducted stakeholder and market validation discussions with healthcare professionals and potential users to refine business and technical requirements.

EXPERIENCE

Digital Content & Communications Officer (Internship) **Oct '25 – Jun '26 [Exp]**
Centre for eResearch and Digital Innovation (CeRDI) @ Federation University *Mt Helen, Victoria*

- Researched, analysed, published **10+** web pages and documented digital workflows for **Visualising Australasia's Soils (VAS)** research platforms, improving clarity, accessibility, and usability of complex geospatial and soil data content.
- Produced **10+** instructional videos and user guides to support onboarding & effective use of VAS digital systems.
- Tested **50 geospatial data layers** across the VAS platform, identifying functionality, integration, and usability issues for technical review.
- Tested **16,000+ Victorian Resources Online URLs** and reviewed spatial data layer references using process mapping to investigate soil and landform resources, identify missing or mismatched layers for VAS integration.

Team Member - Technology, Service **Mar '25 – Present**
Officeworks *Ballarat, Victoria*

- Supported **50+ customers daily** by analysing needs, explaining technical product options, and recommending laptops, printers, phones, devices, and accessories.
- Resolved **70+ daily customer inquiries, purchases, and returns**, using strong communication, problem-solving, and stakeholder service skills in a fast-paced retail environment.
- Applied technology and product knowledge to support **200+ purchase decisions**, contributing to improved customer satisfaction and an estimated **30% sales conversion uplift**.

Participant / Founder - KidneyMate **Feb '26 – May '26**
FORGE Pre-Accelerator @ Federation University — LaunchVic *Ballarat, Victoria*

- Selected from **100+ teams** for a competitive **LaunchVic-backed pre-accelerator**, validating KidneyMate as a CKD self-management health-tech solution.
- Conducted **50+ stakeholder and market validation outreaches** with healthcare professionals, potential users, and industry contacts to refine requirements, customer needs, and solution fit.
- Completed a **4-month accelerator program** with **6 masterclasses** and **8 mentor sessions** focused on product validation, revenue modelling, go-to-market strategy, and clinical workflow alignment.
- Translated validation insights into product positioning, business model assumptions, and feature priorities to support pilot readiness and early-stage implementation planning.

Team Member - Software and Hardware

Aug '22 – Apr '23

Team Atlas

Dhaka, Bangladesh

- Contributed to **4+ robotics and automation projects** as an analyst, hardware developer, and project contributor, supporting requirements analysis, prototyping, testing, and delivery.
- Coordinated communication across a team of **8+ members**, mentors, and competition stakeholders to clarify requirements, manage tasks, and align technical work with project outcomes.
- Participated in **3+ international and 5 national competitions**, including co-developing a **Mars Rover** that secured **9th place** at the **Australian Rover Challenge 2024**.

TECHNICAL SKILLS

- **Programming:** Python, SQL, PostgreSQL, MySQL, Flutter-Dart, Java, HTML/CSS/JS.
- **Digital & Data Systems:** Weka, Power BI, SAS Studio, Tableau, AWS - Neo4j, PostGIS, MongoDB, MySQL.
- **Software & Resource Development:** Agile/Scrum methodologies, Git.
- **Communication & Integrity:** Strong interpersonal skills, awareness of academic integrity, and ability to communicate technical concepts clearly to diverse audiences.

ACHIEVEMENTS

- Received **People's Choice Award** (Melbourne) and Galactic Problem Solver at NASA Space Apps 2023.
- **Global Finalists Honorable Mention** and 2nd Runners-Up (Dhaka) at NASA Space Apps Challenge 2022.
- **Semi-finalist** at HULT Prize 2022 OnCampus, recognized for an SDG-focused (Employability) business concept.
- **Participant** at FORGE Pre-Accelerator 2026, a LaunchVic backed early-stage startup acceleration program.

MEMBERSHIP / EXTRACURRICULAR ACTIVITIES

BRAC University Business Club (BIZBEE) — *Senior Executive*

Feb '22 – Mar '23

- Led a team of **50+** to organize large business competitions and events, forging partnerships with industry stakeholders.
- Secured over **10,000 USD** in sponsorships from local and multinational companies, increasing visibility among tech recruiters and business leaders.

Robotics Club of BRAC University (ROBU) — *Senior Executive*

Nov '21 – Mar '23

- Contributed to **4 team-based robotics projects**, enhancing skills in automation, prototyping, and teamwork.
- Volunteered in national robotics **competition** named TRACTION Omni-Verse with a participation of **500+ students and 90+ robotics** projects.

Australian Computer Society (ACS) — *Student Member*

Jul '25 – Present

- Engaged with a national community of IT professionals; participated in webinars and discussions on digital ethics, AI, and future tech trends.

VOLUNTARY ACTIVITIES

Contributed across 4+ activities, notably -

Duke of Edinburgh Program — *Bronze Award*

Jan '23

- Supported **100+** people through community meal service, tutored **8+** students as part of a structured service program.
- Completed a **3-day expedition** with **80 participants**, strengthening teamwork, leadership, planning, and communication skills.

Community Volunteer, Gontobbo Youth Foundation — *Volunteer*

Jan '22

- Supported **300+ people** through essential supply distribution and coordination of **10+ community events**.
 - Raised and managed **USD 2,000+** in donations and supported **5+ emergency response initiatives**.
-
