

MOHAMMAD SAUD

Founder & Project Manager — KidneyMate | Digital Content and Communications Officer @ CeRDI | Aspiring Project Manager & Business Analyst

Ballarat, Victoria, Australia · msaud1959@gmail.com · linkedin.com/in/mohammadsaud · github.com/msaud1959

PROFILE

Bachelor of IT graduate (Federation University Australia, June 2026, Distinction average) working at the intersection of software, data and people. Founder and Project Manager of KidneyMate, a chronic kidney disease self-management app developed from capstone to startup through the FORGE Pre-Accelerator (supported by LaunchVic). Professional experience in research-data publishing, GIS, web content, QA and stakeholder communication at CeRDI. Two-time NASA Space Apps Challenge awardee. Aiming for project management and business analysis roles in agile teams.

EXPERIENCE

Founder & Project Manager — KidneyMate (FORGE Pre-Accelerator, supported by LaunchVic) Jan 2026 – Present

- Building Australia's first chronic kidney disease self-management app — leading product direction, planning and roadmap, team coordination, market validation, pitch preparation and pilot-readiness.
- Refined the problem, pitch and revenue model with mentors, clinicians and startup experts through FORGE.

Digital Content and Communications Officer — CeRDI, Federation University (Co-op Placement) Oct 2025 – Present

- Contributed to the refreshed **Visualising Australasia's Soils (VAS)** website — a FAIR, interoperable soils knowledge system for Australia and New Zealand (Soil CRC project).
- Digitised and restructured the **Victorian Resources Online (VRO)** archive; handled GIS/spatial datasets (QGIS).
- Managed web content and digital assets; performed testing/QA, documentation and researcher liaison.

Product Owner & Lead Developer — CKD App Capstone, Federation University 2025

- Led a six-person agile team over two semesters (sprints, stand-ups and backlog in Jira): symptom and well-being tracking, medication management, diet/fluid monitoring and automated reminders.
- Designed the Supabase database schema and authentication; presented to industry leaders in Oct 2025.

Team Member (Technology) — Officeworks, Ballarat Apr 2025 – Present

- Advise 30–40 customers per shift on tech products; earlier customer-service roles at 7-Eleven and Coles (2023–2025).

EDUCATION

Bachelor of Information Technology — Federation University Australia Jun 2023 – Jun 2026

- Distinction average; High Distinctions across all Data and Business Analytics electives.

BSc Computer Science & Engineering — BRAC University, Dhaka Oct 2021 – Jun 2023 (credits transferred)
